

EVERY MINUTE COUNTS

Reflective 911 House ID Signs from Readington Township CERT

First Responders rely on reflective home address numbers. Using highly visible address panels throughout our community provides the fastest possible response time for you and your neighbors.

The Friends of Readington Township Citizens Corps Program, in partnership with Readington Township CERT (Community Emergency Response Team), is pleased to offer all local homeowners an effective and affordable solution.

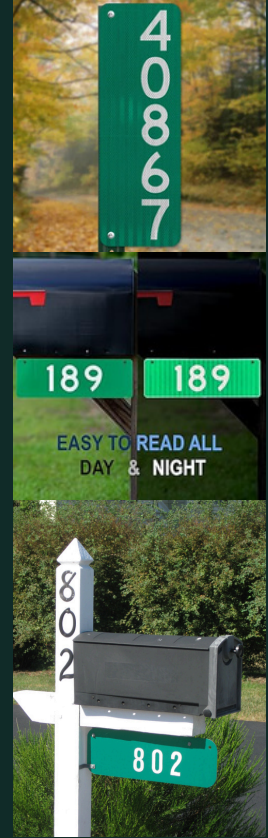

Our House ID signs are visible from long distances, especially at night when they are most important! They feature heavy aluminum panels with 3M Prismatic© green reflective sheeting and white numbers. The 18" x 6" signs are numbered on both sides with up to five 3" numbers, centered and mounted vertically or horizontally.

The materials are made with pride in the USA! Our signs have an estimated life span of over 20 years and meet all Readington Township requirements for emergency numbering of buildings (Ordinance 82-4).

Our premium double-sided House ID signs cost \$20.00. Two screws are included for mounting on most posts. Program proceeds go toward the operating budget of the all-volunteer Readington Township CERT.

Order in-person or by mail. Look for us at community events, visit readingtontpw.gov/public-safety/emergency-mgt, or mail form to: Friends of Readington Township CCP, PO Box 4, Three Bridges, NJ 08887. Make checks payable to: FRTCCP. We are a 501(c)3 organization.

Thank you for your support!
